

## OUR CHILDREN ARE OUR FUTURE.

**We now offer grants to churches who help children in the community through a Kids Hope program.**

Kids Hope USA is new to Montana, and the Gianforte Family Foundation is pleased to offer grants of \$1,150 to churches implementing their program.

**Kids Hope connects churches to public schools, to help children** in need of one-on-one relationships with loving, caring, reliable adults. The organization has been very successful in changing children's lives. Your partnership will also strengthen the church's connection with your local community.

- Kids Hope provides churches with training and ongoing support.
- Kids Hope helps your church gain entrance into a public school.
- Your church provides a program director (5 hour/week commitment is typical).
- Your church identifies volunteers to mentor children.
- Lives are changed forever, both the child's and the mentor's, through lasting and meaningful relationships.

**Start the process by reviewing the grant guidelines and applying today.** Questions? Visit [Kids Hope USA](#), [watch their introductory video](#), or [email us](#) to learn more.
