Dear Friends,

If the last couple of years have reminded us of anything it is the value of dependability, stability, and trustworthiness. Since we literally have the ability to conduct business anywhere on the planet, our options for any given vendor or service provider are almost limitless. Just do a quick Google search for “phone service” and you’ll see what I mean. In the midst of this, the District team is constantly looking for good resources to pass along to churches to help clear the fog. To that end, I want to recommend a resource that we have been blessed to work with.

Brotherhood Mutual Insurance Company is an AM Best A- (Excellent) rated insurance carrier that works exclusively with churches and related ministries. As such, they understand the unique challenges that our organizations face. Their products include property, liability, missions, vehicle, and workers compensation coverage. We have found these coverages to be excellent, and their dependability at claim time superb. They also provide many free resources to assist churches in creating good policy and practice.

Additionally, their local representatives, Glidewell Insurance and Investments based out of Missoula and Bozeman, MT, have been fantastic partners who are not only exceedingly competent, but take a great interest in the needs of those they serve. They’ve also been very accessible, which, as you know, is hard to place a value on.

If you’ve been completely satisfied with your current carrier, please don’t hear this as a plea to change your coverage. But if you think it’s time for a quick review, we would ask that you consider Brotherhood and Glidewell as an option. They’ve been a wonderful partner for us and so many of our District churches. For more information you can call Glidewell at (406) 284-7077, or reach out to me directly with further questions or to discuss our experience with them.

Serving Christ together with you,

Chris Tweedy
Assistant to the District Superintendent
